

How to Download, Install, and Use the UNT Dallas VPN on Windows

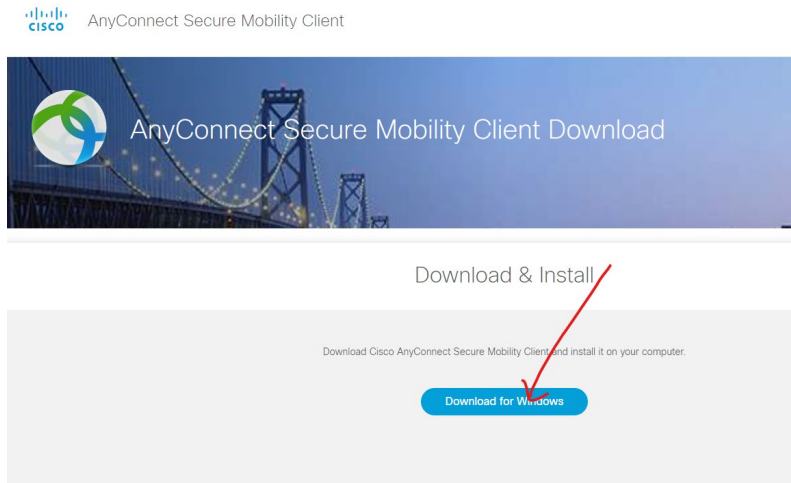

1. On your preferred browser navigate to <https://vpn.untdallas.unt.edu>
2. Login using your EUID (example: abc1234) and password.

A screenshot of a 'Login' dialog box. The dialog has a title bar with a lock icon and the word 'Login'. Below the title bar, it says 'Please enter your username and password.' There are three input fields: 'GROUP:' with a dropdown menu set to 'General', 'EUID:', and 'PASSWORD:'. A 'Login' button is at the bottom. A red oval highlights the entire dialog box.

3. A DUO push notification will be sent to your phone to verify you are attempting to access VPN. **Note: You will not be able to move on to next step without verifying on DUO.**
4. Read over and if you accept the Terms of use click **Continue**.

A screenshot of a dialog box containing terms of use. The text reads: 'This system is the property of University of North Texas at Dallas and your use of this resource constitutes an explicit agreement to abide by relevant federal and state laws and UNT Dallas policies. Unauthorized use of this system is prohibited. Violations can result in severe penalties and possible criminal prosecution. There is no reasonable expectation of privacy and you consent to monitoring, review and disclosure of information by using this system.' At the bottom, there are 'Cancel' and 'Continue' buttons. A red arrow points to the 'Continue' button.

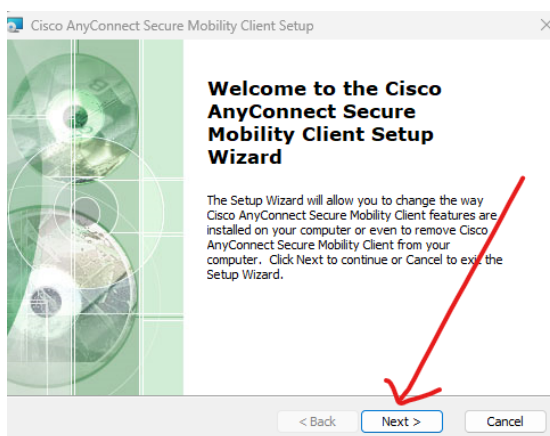

5. Click on the blue button that says **Download for Windows**.

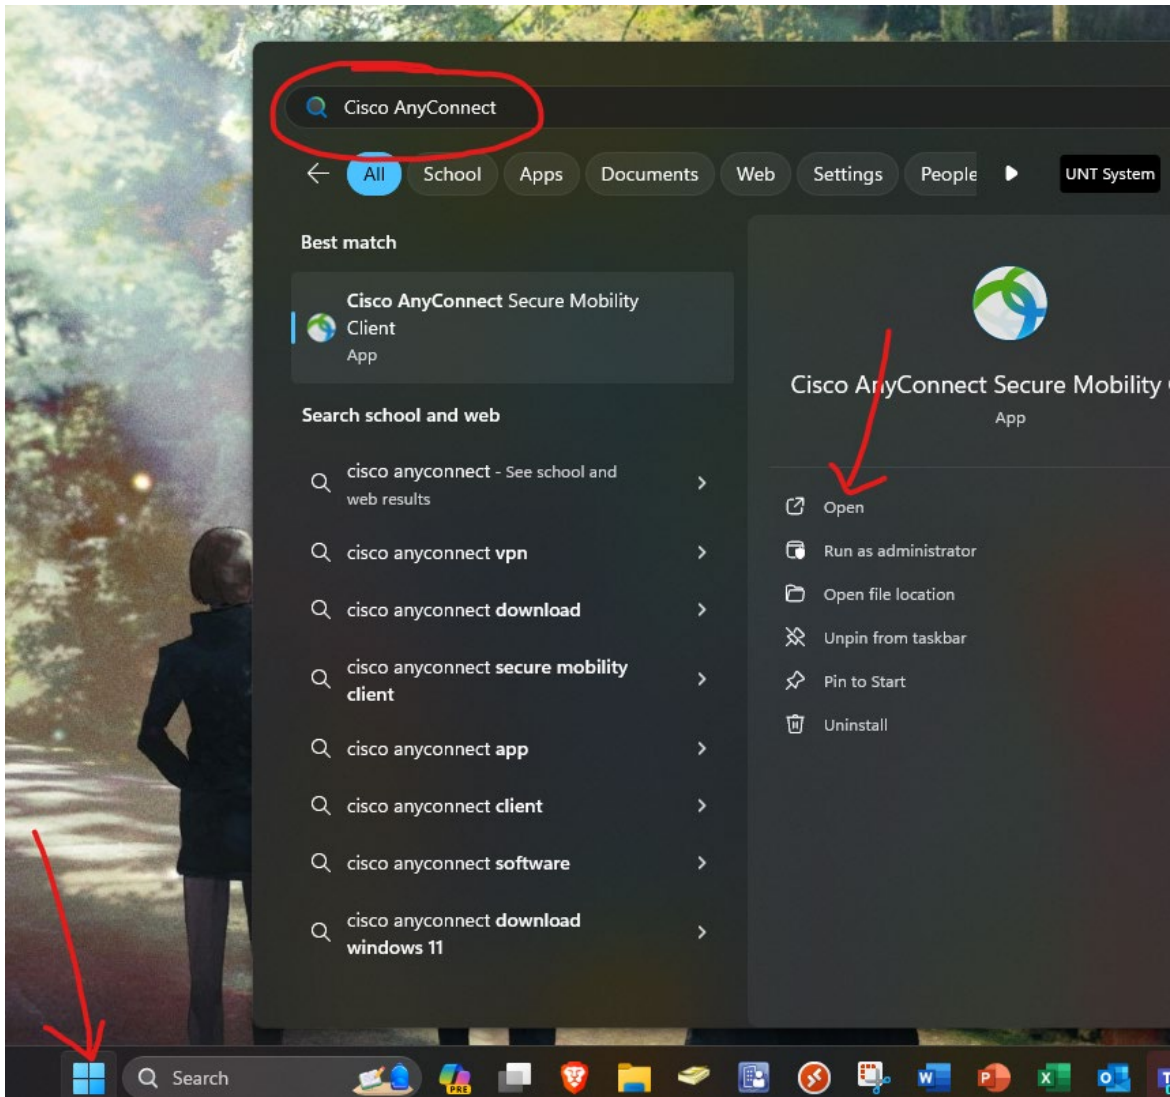

6. Once the file is downloaded locate the file (most commonly goes to the Downloads folder) and double click the file (anyconnect-win-x.xx.xxxxx-core-vpn-webdeploy-k9.msi).
7. Double click the download file to run the installer.

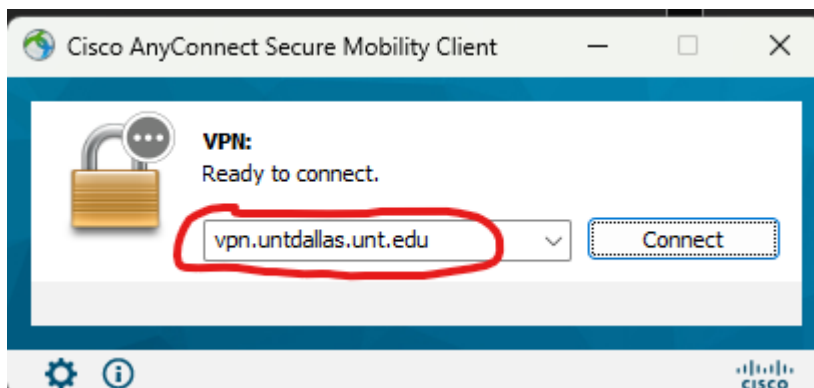

8. Go through all the default installation preferences in the installation wizard.

9. Once the application is installed, click on your Start Menu and search for “Cisco AnyConnect” and launch the application.

10. Enter **vpn.untdallas.unt.edu** in text field and then click **Connect**.

11. Log in using your EUID (example: abc1234) and password.
