

How to Download, Install, and Use the UNT Dallas VPN on Mac

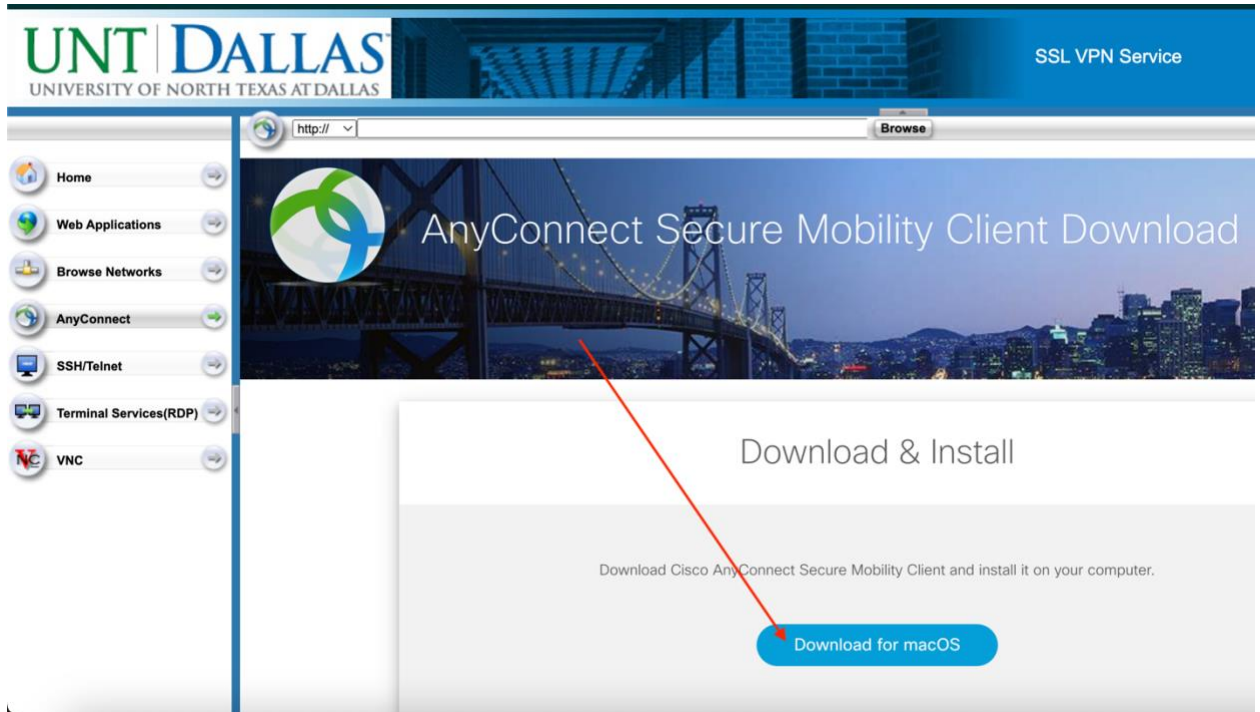

1. On your preferred browser navigate to <https://vpn.untdallas.unt.edu>
2. Login using your EUID (example: abc1234) and password

A screenshot of a web browser window titled 'Login'. The page contains the text 'Please enter your username and password.' Below this, there are three input fields: 'GROUP:' with a dropdown menu set to 'General', 'EUID:', and 'PASSWORD:'. A 'Login' button is located at the bottom of the form. A red oval highlights the entire login form area.

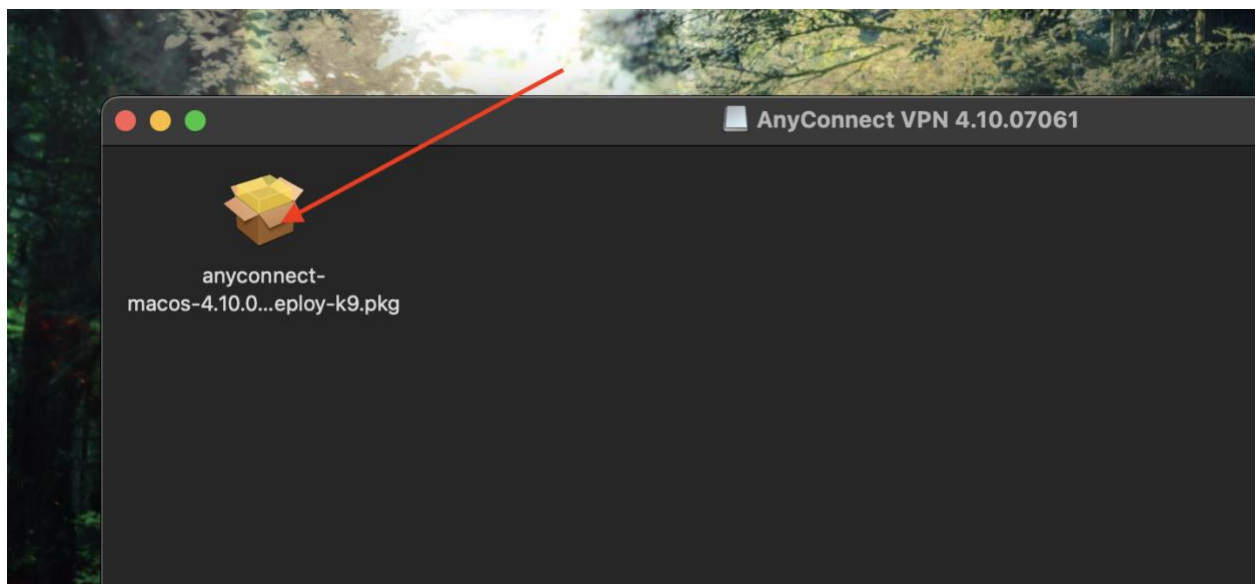

3. A DUO push notification will be sent to your phone to verify you are attempting to access VPN. **Note: You will not be able to move on to next step without verifying on DUO.**
4. Read over and if you accept the Terms of use click **Continue**.

A screenshot of a dialog box containing the following text: 'This system is the property of University of North Texas at Dallas and your use of this resource constitutes an explicit agreement to abide by relevant federal and state laws and UNT Dallas policies. Unauthorized use of this system is prohibited. Violations can result in severe penalties and possible criminal prosecution. There is no reasonable expectation of privacy and you consent to monitoring, review and disclosure of information by using this system.' At the bottom, there are two buttons: 'Cancel' and 'Continue'. A red arrow points to the 'Continue' button.

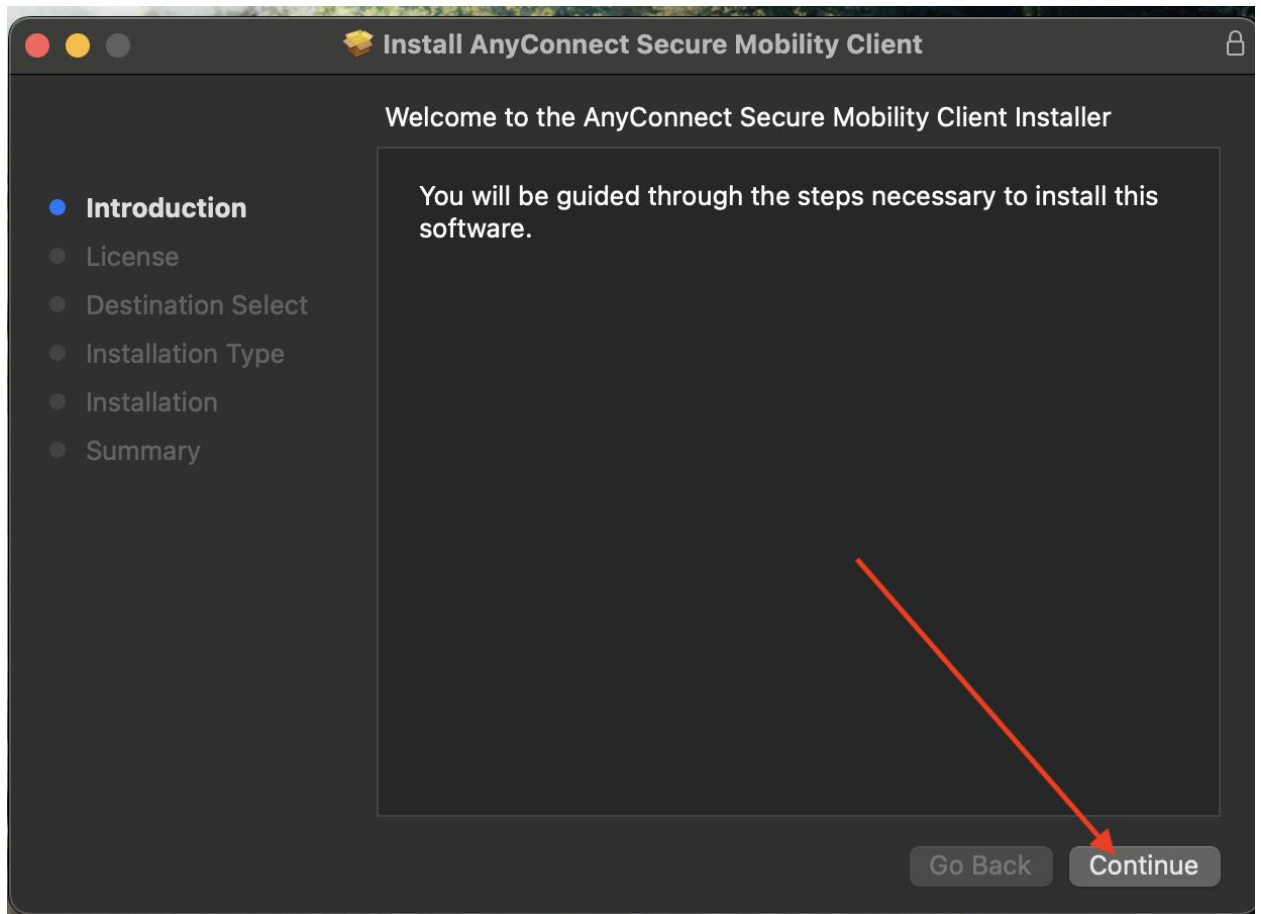

5. Click on the blue button that says **Download for macOS**.

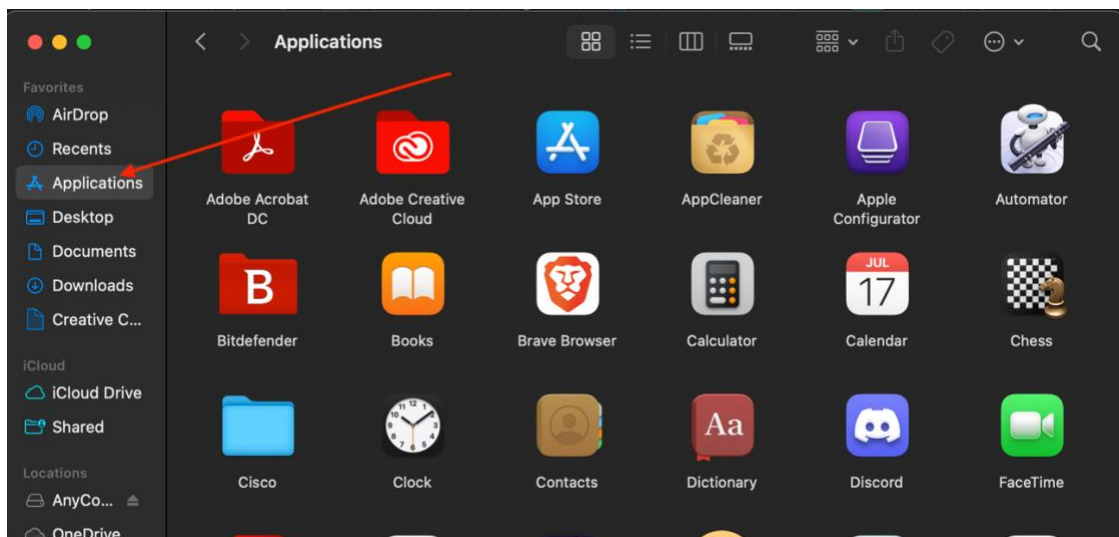

6. Once the file is downloaded locate the file (most commonly goes to the Downloads folder) and double click the file (**anyconnect-macos-x.xx.xxxxx-core-vpn-webdeploy-k9.dmg**).
7. Double click the pkg file that shows up when the installation is mounted.

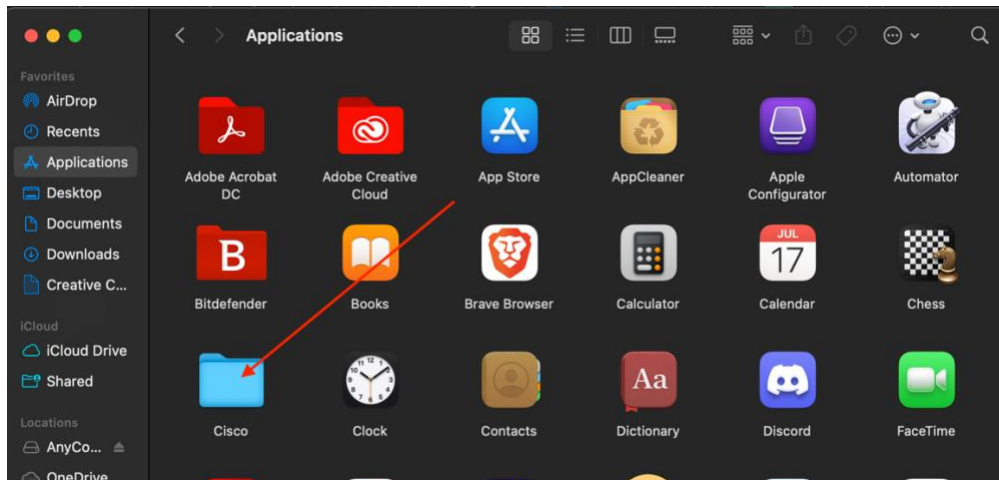

8. Click Continue and go through all the default installation steps.

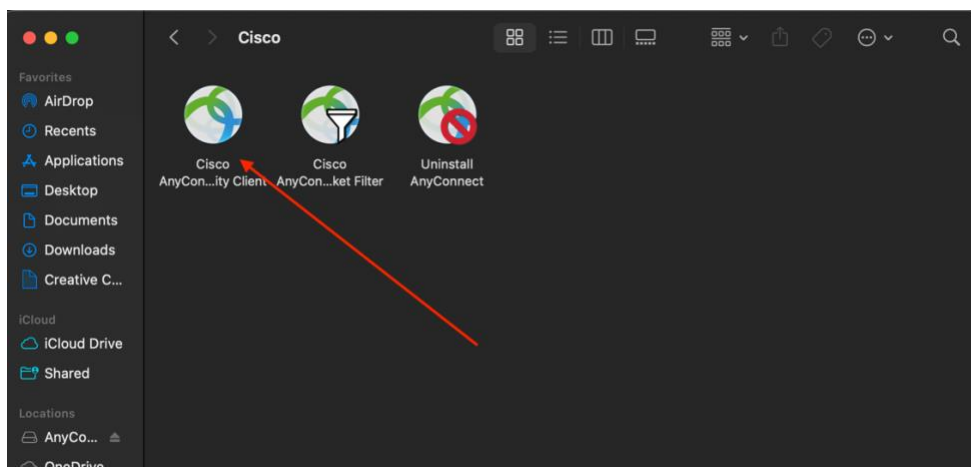

9. Once installed open Finder and navigate to the Applications folder.

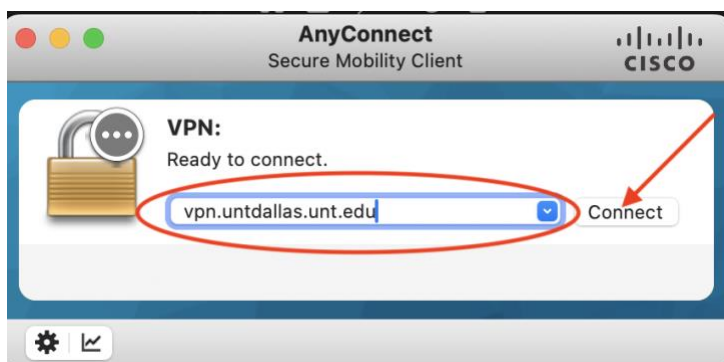

10. Open the Cisco folder.

11. Double click the Cisco AnyConnect Secure Mobility Client to launch the application.

12. Enter **vpn.untdallas.unt.edu** in text field and then click **Connect**.

13. Log in using your EUID (example: abc1234) and password.
