IMPORTANT INFORMATION FOR PRINCIPAL CERTIFICATION STUDENTS

If you already have a Master’s degree and are enrolled in Educational Administration classes as a non-degree seeking or certification-only student and decide to change to degree seeking, you must do that change before you have taken 12 hours. **If you take over 12 hours as a non-degree or certification-only student, you will not be able to use those hours to attain a degree.** In order to change to degree seeking, you also have to fulfill all of the requirements for admission to the Educational Administration Master’s Program. See your instructor or contact your advisor to determine what you need to do to make this change.

SETE

The Student Evaluation of Teaching Effectiveness (SETE) is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class.

In order to receive full credit for attendance, students must be timely and attend all sessions. If a student must miss a class, he/she is expected to notify the instructor in advance. A commitment to the work of the course through preparation for the classes and participation in the classes is extremely important.

Other assignments may be given as appropriate during the semester. At times through the course, you may be asked to summarize the readings for that class session in advance of the presentation.

You are encouraged to take good class notes throughout the semester.

Instructional Strategies/Instructional Design Lesson
For this assignment, you will teach (45-minute lesson) the class your assigned portion of the factors leading to student achievement. This is not a presentation, but a teaching segment during which you will use effective instructional strategies. The goal will be for the students in class to understand and be able to use the information, ideas, skills you will be teaching. If you know of an effective idea that is from another source, you can add that. However, remember that the goal is not to cover a topic but to teach it to others.

The topics will be the school-level, teacher-level, and student-level factors that have the greatest effect on student achievement and the leadership behaviors leading to school improvement. You can teach the information in the textbook and you may add your own information if you wish. However, the information you add through research and outside readings must relate to what we are learning about the particular information based on educational research. Feel free to share techniques, strategies, etc. that you believe would be good for another instructional leader to know.

You could think of this as a possible staff development presentation you might make to fellow educators.

Book Report/Book Presentation

Select one of the books listed below to read and write a three page book report. This portion of the assignment will be done individually. The book presentation will be designed and presented with a partner who has selected the same book to study. The
presentation will be a collaborative effort with the purpose of familiarizing colleagues with the content of the text. The presentation should be approximately 60 minutes in length with the last 15 minutes for questions and dialogue about the book.

**Book Selections:**

*All of the above books can be purchased by calling ASCD 1-800-933-2723 or by ordering on line at [www.ascd.org](http://www.ascd.org)*

**Field Experience & Interview Plan**

Interview a campus principal you admire regarding his/her role as an instructional leader by asking the following questions. (You may add to the list.) In addition to writing a summary of your interview, please include your own reflection on the answers given.

1. How do you schedule your day and week to ensure that you are spending adequate time on instructional issues?

2. What do you consider your expertise in the instructional arena?

3. What self-study do you engage in that assists your instructional growth?

4. What organizational structure supports professional learning communities in your school?

5. How do you use the expertise of master teachers to improve teaching and learning at your school?
6. What obstacles to school improvement have you experienced as a principal? How did you overcome those obstacles?

7. What advice would you give to a beginning principal?

Additionally, you will need to write an interview plan to be used in preparation for a principalship or other instructional leadership position. The interview plan should include the following:

- Questions that might be used in the interview plus your responses to the questions.
- Prepared comments about your strengths as well as comments about one weakness.
- Questions you would ask of the interviewers at the end of the interview.

**Final Reflection**

Write and submit a one-page summary of the type of instructional leader you wish to be. Be sure to include details of how that ideal would look in practice.
COURSE OUTLINE

We will use this course outline as a guide for the semester. However, changes may occur due to time constraints, our learning needs, and feedback from you as class participants. We will monitor and adjust as necessary.
