8. Use Blackboard for student organizations
Recognized student organizations may request a Blackboard organizational site. These sites look very similar to course web sites, and can be used to organize and share documents, or to create collaborative work spaces such as wikis. Send a request to UNTDDistance@unt.edu if you would like to apply for one of these sites.

9. Get help
If you have questions about Blackboard, try searching our on-line FAQ:
1) Click the Help button in the Blackboard page to access the FAQ, or go to http://www.untdallas.edu/dlit/helpdesk
2) If you can't find an answer, e-mail the Blackboard Helpdesk at UNTDDistance@unt.edu

10. Logging out of Blackboard
If you are on a public computer, it's important to log out of Blackboard and off the UNT Dallas network - otherwise, the next user who comes along will be able to log into Blackboard as you! To log out:
1) Click the Logout Button in the Blackboard banner.
2) On the next screen, click the log off link to log off the network.

Office of Distance Learning and Instructional Technologies
Web: http://www.untdallas.edu/dlit

University of North Texas | Dallas
page. Examples of modules you can add:

- A search box for searching Blackboard content
- A Google search box
- Links
- Personalized bookmarks
- Library resources

Click on the Modify Layout button to rearrange the content modules on your home page. You can also customize the contents of the My Courses tabs.

3. Expand the course menu

This is a great way to find content in a Blackboard site with fewer clicks:

1) Go to a course web site  
2) Click on the Detail View button at the bottom left. This will transform the course menu to a folder structure  
3) Click the + or - buttons at the top of the menu to expand or collapse all folders  
4) Click the + or - buttons in front of a folder to expand or collapse just a single folder  
5) Click on the content of a folder to bring it up in the content area of the page  
6) Revert to the "traditional" view of the course menu by clicking on Quick View at the bottom left

4. Send e-mail to your class

You can send e-mail to your class through Blackboard. To access the Send E-mail tool:

From your Blackboard home page:
1) Locate the Tools box (on the left)  
2) Click on Send E-mail  
3) Select the course to which you wish to send  

From within a course:
1) Go into the course web site  
2) Locate the Tools box (on the left)  
3) Click on Communication  
4) Click on Send E-mail  

When you send mail to "All Users", your instructors and TAs are included on the recipient list

5. Check your grades

If your instructor is posting grades in Blackboard, here is how you can access them:

From your Blackboard home page:
1) Locate the Tools box (on the left)  
2) Click on View Grades  
3) Select a course  

From within a course:
1) Go into the course web site  
2) Locate the Tools box (on the left)  
3) Click on Course Tools  
4) Click on My Grades

6. Access your old assignments, quizzes and surveys

Most assignments, quizzes and surveys administered through Blackboard are time-restricted, meaning that they will disappear from Blackboard after the assignment deadline. But you can still access your answers or submissions to these assignments through the Check Grades tool (see tip # 5). Click on a given grade to see a record of your work for that assignment or quiz. This only works for assignments or quizzes originally submitted through Blackboard, and for courses which are still available to you (generally, current term only).

7. Use Blackboard for group work

Blackboard has several tools which facilitate group work: blogs, wikis, and even private discussion boards for groups of students. If group work has been assigned in your class, ask your instructor to set up collaborative work areas for you in the course web site.
