CHECKING ON STUDENTS WITH THE PERFORMANCE DASHBOARD

Check on Students with the Performance Dashboard
The Performance Dashboard provides Instructors with a window into all types of user activity in a Course or Organization. All users enrolled in the Course are listed, with pertinent information about that user’s progress and activity in the Course.

Step 1
The Performance Dashboard is accessed through the Evaluation area of the Control Panel.

Step 2
This page shows the following information:
- Last Name
- First Name
- Username
- Role
- Last Course Access
- Days Since Last Course Access
- Review Status: Displayed only if this tool is enabled. Displays how many items have been reviewed; a detailed view of items may be opened in a new window.
- Adaptive Release: Displayed only if this tool is enabled. An overview of the Student path may be opened in a new window.
- Discussion Board: Displayed only if this tool is enabled. Provides links to the Discussion Board comments.
- Early Warning System: Shows the number of warnings and the number of total rules that may trigger a warning. Clicking on the data in this column will open the Early Warning System. The Early Warning System column will only display if the tool is turned on in the Course.
- View Grades: Displayed only if the Grade Center is enabled. Provides links to the Grade Center: User grade List page for that user.
