General Assignment Submission Guidelines

1. Writing and referencing should conform to the writing style and reference guidelines found in the Publication Manual of the American Psychological Association (7th ed.).
2. Double space using Word files using an appropriate 12-point, black color font, Times New Roman or Arial writing style and one-inch margins.
3. Use a Title Page and make it APA style with assignment/project title, your name, the date, the course.
4. Use headers, right justified, per APA. Put your last name and page number on first header line; and on the second header line, type the assignment title/name.
5. Always write an introductory paragraph and a final concluding (i.e., synthesizing, evaluative) paragraph; always include a references page, per APA.

6. A full-page equals 22-23 lines of content.
7. Caveat for all assignments and projects: Please be careful and attend to issues of good grammar, spelling, and presentation.
8. DO NOT USE CONTRACTIONS in academic writing. This course's writing is academic and scholarly.
9. Be very careful to maintain consistency in use of verb tense and voice (e.g., third, second-, or first-person voice) throughout papers.
10. An important note about plagiarism as it pertains to this course, avoid writing more than 2 or 3 consecutive words of anything that might be borrowed from another source without citing. When in doubt, cite the source. Realistically, until the conclusions are being drawn and the reflective thoughts are being conveyed, chances are that most students' thoughts and writings are drawn from reliable and valid sources. Therefore, citing appropriately, sentence by sentence, adds credibility to the writer's work. Furthermore, do not copy either by physically typing or by simply pasting from another source's website or article and call it your own work by failing to cite the material as a direct quotation. The instructor has been known to sleuth out plagiarism (within minutes of detecting a possible problem with a document) despite any desire to not find the evidence. One keyway to avoid problems with plagiarism is to submit assignments informally and early by a date upon which has been mutually agreed. The instructor will return the document with feedback and make suggestions for how to better engage in source citations and how to avoid inappropriately handled quotations. Also, students who make such efforts tend to earn higher grades.
11. Do not cite using Wikipedia, Answer.com, Ask.com, About.com, or any other non-scholarly or non-academic Website (need I go on?). The instructor will critically grade the use of such reference choices to the disadvantage of the student who uses such.
12. No assignment should be submitted as a pdf file, Microsoft Works, Publisher, or WordPerfect, etc. Assignments are due at different dates throughout the semester. I recommend you download the course syllabus and record assignments in a paper planner; pay attention to assignment instructions and due dates. All assignments scheduled for this course are due on Sunday by 9:00 p.m. (unless otherwise noted). **LATE ASSIGNMENTS ARE NOT ACCEPTED!**

Turnitin: Turnitin software will be used to ensure originality of your work. As you draw on research information publicized as journal articles, books, websites, etc. Be sure to use your own words by paraphrasing the author's work and including a citation. Limit the use of quotations. As a rule of thumb, use quotations sparingly. Your work should reflect a scholarly dance between your voice and the voice of other authors for which you used to develop the research paper. Plagiarism will not be tolerated. I recommend you purchase the APA manual that clearly define and explains what plagiarism is and how to avoid committing plagiarism.

Required Filename Format for Word Attachments Submitted Online:

For this course, all written assignments created as Word documents and submitted to Canvas must be saved utilizing the following filename format:

- 2).Click on save as; Title/save the document according to the require filename format.

Avoid use of periods, hyphens, ampersand &, slash marks / \, pound sign, at sign @, etc.

4. Make sure emails are free of spelling, grammatical and capitalization errors

close the email by including your first and last name and student ID #

Emails not correctly formatted will not receive a response from the professor. When communicating with classmates, please exercise courtesy and respect whether you are sending a classmate a direct email or responding to discussion assignments. Always acknowledge everyone by their name.

Note that a student must obtain a new letter of accommodation for every semester and must meet/communicate with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver

letters of accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. In addition, the student will be assigned a failing grade for assignments, quizzes or examinations missed and will not be allowed to make up the work.

The Code of Student's Rights, Responsibilities, and Conduct (UNTD Policy 7.001 found at <https://untsystem.policytech.com/dotNet/documents/?docid=1278&public=true>) describes disruption as the obstructing or interfering with university functions or activity, including any behavior that interferes with students, faculty, or staff access to an appropriate educational environment. Examples of disruptive behavior that may result in a student being directed to leave the classroom include but are not limited to: failure to comply with reasonable directive of University officials, action or combination of actions that unreasonably interfere with, hinder, obstruct, or prevents the right of others to freely participate, threatening, assaulting, or causing harm to oneself or to another, uttering any words or performing any acts that cause physical injury, or threaten any individual, or interfere with any individual's rightful actions, and harassment. You are encouraged to read the Code of Student's Rights, Responsibilities, and Conduct for more information related to behaviors that could be considered disruptive.

Course Evaluations:

Student evaluations of teaching effectiveness are a requirement for all organized classes at UNT Dallas. This short survey will be made available to you at the end of the semester via your campus email, providing you a chance to comment on how this class is taught. I (as the instructor) will not have access to the results of the evaluations until after final grades have been posted. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider students' evaluations to be an important part of your participation in this class.
