- **Check your email regularly** to be aware of possible announcements/reminders and to maintain progress in the course.

Course Evaluation Methods

This course will utilize several instruments to determine student grades and proficiency of the learning outcomes for the course. In this course, you will work *alone* and in a *group* to complete the following assignments:

Individual: Participation (20 pts):

Small assignments consisting of in-class exercises, small group exercises, and discussion groups make up your participation grade in this class. Students will have ample opportunities to earn participation credit. To earn full credit, students must be present for and actively contribute to at least 10 out of 15 in-class activities/discussions. Participation credit is awarded daily and **cannot** be made up, even with an excused absence. You must be in class on the day we complete exercises. Failure to appear in class will result in a participation grade of 0 for the day. Every in-class activity completed after the initial 10 will be counted as extra credit.

Individual: Media Use Journals (10 pts):

Twice during the semester, students will assess their own technology and media use habits by tracking their media use for three consecutive days. This assignment aims to provide students with new insights into how media and technologies impact them in their daily lives. Students will complete an initial tracking sheet along with a short (500-word) accompanying essay reflecting on their use, the content they consumed, etc. The full instructions will be available on Canvas.

Individual: Documentary Response & Critique (15 pts):

In addition to the two media use journals, students will watch a documentary film of their choosing and construct an essay in which they critique the film and offer a response. Students are expected to analyze the film's key themes, content, and use of representation, among other course concepts. The full instructions will be available on Canvas. The following documentary films are recommended (but not limited to) for this assignment:

- *Miss Representation* (2011)
- *Lo and Behold: Reveries of the Connected World* (2016)
- *The Great Hack* (2019)
- *Jawline* (2019)
- *Coded Bias* (2020)
- *The Social Dilemma* (2020)

Group: Class Discussion Facilitation (20 pts):

Working with your 'house' group (explained on August 26 and 28), groups will lead a discussion during one class meeting. On the date of your choosing, groups will come prepared to organize the class discussion, providing relevant handouts or sharing visuals that highlight the concepts your house is covering for the selected class period. The rubric and instructions for this assignment will be made available on Canvas.

- Groups must select up to 2 research reports related to their topic for your peers to read a week in advance of your facilitation.

Course Syllabus: New Media Literacies

- Each facilitation must be a minimum of 1 hour in length, although you may have up to the full class time for facilitation. Date selection for these assignments will be done during the first two weeks of class.

Group In-Class Zine Project (15 pts):

House groups will put their creative and critical thinking skills to the test with a zine-making activity. This project incorporates course ideas about remixing and persuasion and requires that you create an original magazine. The rubric and instructions for this assignment will be made available on Canvas.

Group: *Black Mirror* Writer's Room Project (20 pts):

Inspired by the Netflix show, *Black Mirror*, this project will involve each house's creation of a TV episode plot that highlights the importance of media and tech ethics, the social implications of tech use and access, and the grip of media on our personal and professional lives. With your house group, you will complete a series of planning documents and edit together a "trailer" for your episode.

Extra Credit:

Students will have several ways to earn extra credit in this course. First, students can earn 5 points of extra credit for participating in class activities beyond their required 10. Second, consultant groups will have opportunities to earn extra credit for their 'house' when completing each group assignment (e.g., turning in their work one day early). More information on 'house' points will be given on August 26 and August 28.

Grading Breakdown & Policies

Accessing Grades:

You can access your grades on the Canvas Course Menu (under the tab "Your Grades"). Grades will be posted after the due date and after the assignment has been graded for all students.

Participation <i>10 opportunities @ 2 pts. each</i> <i>5 opportunities = 5 pts. Extra Credit</i>	20	20%

Course Syllabus: New Media Literacies

- If your point total is 59 points or less, you will earn an F

24/7 Rule:

If you have questions about or are concerned about a specific grade you earned, you will need to schedule an office hour appointment to discuss the grade. You must wait a minimum of 24 hours after receiving a graded assignment before contacting me to discuss the grade. During this time, you should review the assignment description and grading rubric for information about assessment methods. After the initial 24 hours, you have one week to meet with me to discuss the grade. If you do not meet with me in that time, then I will consider the matter closed.

Late Work:

- **Grace Period:** Although assignments are due by 11:59 PM unless otherwise noted, they will be accepted up until 10:00 AM the next morning with a 20% deduction. This is to encourage you to get a good night's sleep, but have some flexibility, too. Assignments

Course Syllabus: New Media Literacies

submitted after the grace period will receive a grade of 0. No exceptions without a university-approved excuse.

- If something comes up and you would like to request an extension, you need to do so in a timely fashion and with good reason. I can't help you unless you let me know what's going on—communication is key!
 - **Technological issues are not an excuse for late work.** Do not wait until the last minute to submit work in case any issues arise. Contact Canvas for tech support.

University Policies and Procedures

Students with Disabilities (ADA Compliance):

The University of North Texas at Dallas makes reasonable academic accommodations for students with disabilities. Students seeking accommodation must first register with the Disabilities Services Office (DSO) to verify their eligibility. If a disability is verified, the DSO will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request accommodation at any time, however, DSO notices of accommodation should be provided as early as possible in the semester to avoid any delays in implementation. Note that a student must obtain a new letter of accommodation for every semester and must meet/communicate with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information see the Disability Services Office website at <http://www.untdallas.edu/disability>. You may also contact them by phone at 972-338-1777; by email at UNTDisability@untDallas.edu on the first floor of the Student Center.

Canvas Instructure Accessibility Statement:

University of North Texas at Dallas is committed to ensuring that online and hybrid courses are usable by all students and faculty including those with disabilities. If you encounter any difficulties with technologies, please contact our ITSS Department. To better assist them, you would want to have the operating system, web browser and information on any assistive technology being used. The Canvas Instructure Accessibility Statement is provided at <https://www.canvaslms.com/accessibility>.

NOTE: Additional instructional technology tools, such as Turnitin, Respondus, Panopto, and publisher cartridge content (i.e. MyLab, Pearson, etc.) may NOT be fully ADA compliant. Please contact our Disability Office should you require additional assistance utilizing any of these tools.

Academic Integrity:

Academic integrity is a hallmark of higher education. You are expected to abide by the University's code of Academic Integrity policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University's policies and

Course Syllabus: New Media Literacies

procedures. Refer to the UNT Dallas Academic Integrity Policy in the appropriate Catalog at <http://dallascatalog.unt.edu>.

Academic dishonesty includes, but is not limited to, cheating, plagiarizing, fabrication of information or citations, facilitating acts of dishonesty by others, having unauthorized possession of examinations, submitting work of another person or work previously used without informing the instructor, or tampering with the academic work of other students.

AI Use is Allowed ONLY for Specific Assignments:

You may not use traditional artificial intelligence tools or generative artificial intelligence (AI) tools (such as ChatGPT) to assist or produce work for this class EXCEPT on assignments specified in class or on the syllabus. The instructor will provide more information as appropriate. You may not, however, construe this limited use as permission to use these technologies in any other facet of this course. Submission of AI-generated content as your own work is a violation of academic integrity and may result in referral. Please contact your instructor if you have questions regarding this course policy.

Web-based Plagiarism Detection:

Please be aware in some courses, students may be required to submit written assignments to Turnitin, a web-based plagiarism detection service, or another method. If submitting to Turnitin, please remove your title page and other personal information.

Classroom Etiquette:

Students are encouraged to contribute their perspectives and insights to class discussions. However, offensive & inappropriate language (swearing) and remarks offensive to others of nationalities, ethnic groups, sexual preferences, religious groups, genders, or other ascribed statuses will not be tolerated. Disruptions which violate the Code of Student's Rights, Responsibilities, and Conduct will be referred to the Dean of Students as the instructor deems appropriate (UNT Policy 7.001 found at <https://untsystem.policytech.com/dotNet/documents/?docid=1278&public=true>).

Classroom Disruption:

Students are expected to always engage with the instructor and other students in this class in a respectful and civil manner to promote a classroom environment that is conducive to teaching and learning. Students who engage in disruptive behavior will be directed to leave the classroom. A student who is directed to leave class due to disruptive behavior is not permitted to return to class until the student meets with a representative from the Dean of Students Office. It is the student's responsibility to meet with the Dean of Students before class meets again and to provide the instructor confirmation of the meeting. A student who is directed to leave class will be assigned an unexcused absence for that class period and any other classes the student misses because of not meeting with the Dean of Students. The student is responsible for material missed during all absences, and the instructor is not responsible for providing missed material. In addition, the student will be assigned a failing grade for assignments, quizzes or examinations missed and will not be allowed to make up the work.

Course Syllabus: New Media Literacies

The Code of Student's Rights, Responsibilities, and Conduct (UNTD Policy 7.001 found at <https://untsystem.policytech.com/dotNet/documents/?docid=1278&public=true>) describes disruption as the obstructing or interfering with university functions or activity, including any behavior that interferes with students, faculty, or staff access to an appropriate educational environment. Examples of disruptive behavior that may result in a student being directed to leave the classroom include but are not limited to: failure to comply with reasonable directive of University officials, action or combination of actions that unreasonably interfere with, hinder, obstruct, or prevents the right of others to freely participate, threatening, assaulting, or causing harm to oneself or to another, uttering any words or performing any acts that cause physical injury, or threaten any individual, or interfere with any individual's rightful actions, and harassment. You are encouraged to read the Code of Student's Rights, Responsibilities, and Conduct for more information related to behaviors that could be considered disruptive.

Course Evaluations:

Student evaluations of teaching effectiveness are a requirement for all organized classes at UNT Dallas. This short survey will be made available to you at the end of the semester via your campus email, providing you a chance to comment on how this class is taught. I (as the instructor) will not have access to the results of the evaluations until after final grades have been posted. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider students' evaluations to be an important part of your participation in this class.
