Course Goals or Overview: The goals of this course are as follows -

The purpose of this course is to explore the processes of death, dying, and bereavement. Specifically, we will be looking at each of these through a psychological lens of how each process potentially impacts people through their thoughts, feelings, and actions.

A primary goal for each student should be to have a better understanding through these processes by engaging in a series of activities that challenges perspectives on this subject matter.

Learning Objectives/Outcomes: At the end of this course, students will be able to:

1	Examine the key differences between death, dying, and bereavement; and develop an appreciation for the process of each.
2	Demonstrate deep levels of understanding of these topics by engaging in writing activities that challenge current levels of perception on the subject matter.
3	Analyze peer work, and provide constructive critical feedback through discussion forums.
4	Apply what has been learned through a summative writing exercise and by conducting an Experiential Project.

Course Evaluation Methods

This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes for the course.

Here is a breakdown of the percentage structure that will account for your overall grade:

Syllabus Quiz	5%
Prompts	50%
Experiential Project	30%
Summative Review	15%
Total	
100%	

Grade Determination:

A = 90% or better

B = 80 – 89%

C = 70 – 79%

D = 60 – 69%

F = less than 60%

Let's take a look at what you will be responsible for within each of these categories...

PROMPTS | 50% of your Overall Grade (Access through Canvas):

You will have four prompts (12.5% for each) due over the span of the term. Each of these prompts will focus on Parts 2-5 of the textbook. There will be more explicit details provided to you in each assignment here within Canvas, so please make sure and go to each module to find out more about what will be expected of you for this portion of your grade.

EXPERIENTIAL PROJECT | 30% of Overall Grade | 100-Point Scale:

For this project, you will conduct a series of interviews and then qualitatively analyze the themes and takeaways that emerge. Ultimately, the purpose is for you is to have an opportunity to take what you have learned and discover something in a real-world setting. Then, you will take what you have discovered, analyze it, then provide an evaluative project to the class.

*More explicit details will be provided in Canvas.

SUMMATIVE REVIEW | 15% of Overall Grade | 100-Point Scale:

The purpose of this review is to provide a summary of your experience through the four prompts.

Here's what you'll do:

1. Go back and read through each of your four prompts. As you do, think about how you can adequately summarize the entire experience.

2. Next, for each prompt, answer the following questions.
 - a. In general, what did I learn about the subject of death & dying that I didn't know beforehand?
 - b. What did I specifically learn about my own perceptions of death & dying through this prompt?
 - c. How can what I have learned, both generally and personally, help me to potentially grow on a personal level?
 - d. How will I use the insight that I have learned here moving forward?
3. Lastly, provide some closing thoughts as to the overall experience and any last things you'd like to say about how the process has either helped or not helped.

*Minimum of 150 words.

PLEASE NOTE: There's a 300-word minimum for each prompt. Therefore, your answers for all four questions should total 300. So, your overall total for this assignment should be around 1350 (4 prompts x 300 words + 150 word conclusion).

LATE WORK POLICY:

Due to the nature of most of the assignments, late work will not be accepted.

Exceptions may be made on a case-by-case basis (verifiable excuses: example: athletic participation), but no less than a 10% deduction per day that an assignment is late will be credited.

University Policies and Procedures

Students with Disabilities (ADA Compliance):

Chapter 7(7.004) Disability Accommodations for Students:

The University of North Texas at Dallas makes reasonable academic accommodation for students with disabilities. Students seeking accommodations must first register with the Disability Services Office (DSO) to verify their eligibility. If a disability is verified, the DSO will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course.

You may request accommodations at any time, however, DSO notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet/communicate with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of accommodation during faculty office hours or by appointment. Faculty members have the authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information see [Disability Services Office](#). You may also contact them by phone at 972-338-1777; by email at UNTDDisability@untDallas.edu or at Building 2, room 204.

This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider students' evaluations to be an important part of your participation in this class.

Assignment Policy: (According to the instructor's discretion while working in concert with the division/program's guidelines).

Exam Policy: (Online exams and the ability to retake is solely at the instructor's discretion).

NOTE: Online exams may be proctored on campus per instructor's discretion.
