University of North Texas at Dallas  
Spring 2017 Syllabus  

MATH 1680 (001) Elementary Probability and Statistics (3CR)

Department of Mathematics and Information Sciences  
School of Liberal Arts and Sciences

Instructor Name: Mary Jean Hoyt  
Office Location: DAL 1 201C  
Office Phone: 972-338-1338  
Email Address: mary.hoyt@untdallas.edu

Class Time & Room: MW 5:30 P – 6:50 PM  
DAL 1 – 102  

Office Hours: TR 9:30-10 am; MW 12:30-1 PM, 2:20-5:30 pm, 6:50-7:50 pm

Catalog Description: An introductory course to serve students of any field who want to apply statistical inference. Descriptive statistics, elementary probability, estimation, hypothesis testing and small samples. Students may not receive credit for both MATH 1680 and MATH 1681.

Prerequisites: Two years of high school algebra and one year of high school geometry and consent of department, or MATH 1010 with grade of C or better. Satisfies the Mathematics requirement of the University Core Curriculum.

Required Text: WebAssign (http://webassign.net)  
Class Key: unt 5316 8951 (includes an e-book)

Core Goals and Objectives: The goal of this course is to introduce students to the concepts of elementary probability and statistics.

Learning Objectives/Outcomes: At the end of this course, the student will be able to

1. Explain the use of data collection and statistics as tools to reach reasonable conclusions.
2. Recognize, examine and interpret the basic principles of describing and presenting data.
3. Compute and interpret empirical and theoretical probabilities using the rules of probabilities and combinatorics.
4. Explain the role of probability in statistics.
5. Examine, analyze and compare various sampling distributions for both discrete and continuous random variables.
6. Describe and compute confidence intervals.
7. Solve linear regression and correlation problems.
8. Perform hypothesis testing using statistical methods.

Course Outline

This schedule is subject to change by the instructor. Any changes to this schedule will be communicated through the class website and the official UNT e-mail. Besides the scheduled assignments, additional readings and activities may be added. Such changes will be communicated through the class page.

<table>

Course Evaluation Methods

This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes for the course.

- **Exams**: written tests designed to measure the knowledge and the understanding on the course materials. This class has three cumulative exams which build on previous knowledge and a final exam to show
- **On-line Assignments**: computer-based assignments designed to supplement and reinforce the course materials. These assignments are completed using webassign. Online assignments have due dates listed on each assignment. After the due date these assignments will be accepted, but will only earn half credit.
- **Written Assignments**: small-scale written assignments designed to supplement, reinforce and assess the course materials and the ability to write mathematical phrases, sentences and paragraphs. These assignments may be completed during the class period or outside of the class time and are due one week after assigned. Late assignments will not be accepted.

Grading Policy:

<table>
<thead>
<tr>
<th>Activities/Assignments</th>
<th>Value (percentages)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exams</td>
<td>30%</td>
</tr>
<tr>
<td>Final</td>
<td>30%</td>
</tr>
<tr>
<td>Written Assignment</td>
<td>20%</td>
</tr>
<tr>
<td>Online Assignment</td>
<td>20%</td>
</tr>
<tr>
<td><strong>Total:</strong></td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>

Grade Determination

A: \(90\% \leq (\text{Total Score})\)
B: \(80\% \leq (\text{Total Score}) < 90\%\)
C: \(70\% \leq (\text{Total Score}) < 80\%\)
D: \(60\% \leq (\text{Total Score}) < 70\%\)
F: \((\text{Total Score}) < 60\%\).
Instructor Specific Policies and Procedures

Exam Policy:
Exams must be taken in person as scheduled, except for documented emergencies approved by the instructor in individual bases. A one-page formula sheet is allowed but not the class note. TI-84 level calculators are allowed, but calculators with computer algebra system (such as TI-89, TI-92 or Voyage 2000) are not allowed during the exam. Other than pre-approved calculators, no other computing aid (such as those supported by tablets and smartphones) is allowed.

Assignment Policy:
The written assignments must be submitted electronically through the course website. Use a single-file pdf format to ensure the safe submission. Late submission will be accepted with the late penalty of 20% per day and will not be accepted after 5 class days. No assignments will be accepted after 11:59 pm May 5.

Technology Requirement:
Every assignment must be submitted in a single-file pdf format. This can be done by some free websites such as https://online2pdf.com/convert-jpg2pdf. Detailed instruction will be communicated through the class page.

Math Lab Hours:
- Monday - Thursday 9:00a - 7:00p
- Friday 5:00p - 7:00p

Please take advantage of this service that is available to you. Our Math Lab is staffed with student tutors who have been recommended by our UNT Dallas faculty, and we have tutors that focus on all different levels of math. are located in DAL 1, 3rd floor.

University Policies and Procedures

Online “Netiquette”:
Emails should use proper “netiquette,” i.e., no writing in all caps (usually denotes yelling), no curse words, and no “flaming” messages (angry, personal attacks). Racial, ethnic, or gender slurs will not be tolerated, nor will pornography of any kind. Any violation of netiquette policies may result in a loss of points or removal from the course. Repeated online misconduct may be subject to more serious sanctions, such as warnings and other sanctions in accordance with the University’s policies and procedures. Refer to the Student Code of Student Rights Responsibilities and Conduct at http://www.untdallas.edu/osa/policies. Respect is a given principle in all online communication. Therefore, please be sure to proofread all of your written communication prior to submission.

Students with Disabilities (ADA Compliance):
The University of North Texas Dallas faculty is committed to complying with the Americans with Disabilities Act (i.e., ADA). Students with documented disabilities are responsible for informing faculty of their needs for reasonable accommodations and providing written authorized documentation. Grades assigned before an accommodation is provided will not be changed as accommodations are not retroactive. For more information, you may visit the Student Life Office, Suite 200, Building 2 or call 972-780-3632.

Blackboard Learn Accessibility Statement: University of North Texas at Dallas is committed to ensuring its online and hybrid courses are usable by all students and faculty including those with disabilities. If you encounter any difficulties with technologies, please contact our ITSS Department. To better assist them, you would want to have the operating system, web browser and information on any assistive technology being used.

Blackboard Learn course management system's accessibility statement is also provided:
Instructional technology tools, such as Turnitin, Respondus, Panopto, and publisher cartridge content (i.e. MyLab, Pearson, etc.) may NOT be fully ADA compliant. Please contact our Disability Office should you require additional assistance utilizing any of these tools.

Student Evaluation of Teaching Effectiveness Policy:
The Student Evaluation of Teaching Effectiveness (i.e., SETE) is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class.

Academic Integrity:
Academic integrity is a hallmark of higher education. You are expected to abide by the University’s code of conduct and Academic Dishonesty policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University’s policies and procedures. Refer to the Student Code of Student Rights Responsibilities and Conduct at http://www.untdallas.edu/osa/policies for complete provisions of this code.

TurnItIn Statement:
Students may be required to submit written assignments for this class to Turnitin, a web-based plagiarism detection service. Before submitting your paper to Turnitin, please remove your title page and other personal information. (OPTIONAL: Any paper that is not submitted to Turnitin prior to submission to the instructor will not be accepted by the instructor and will not be graded).

Attendance and Participation Policy:
The University attendance policy is in effect for this course. Class attendance in the Blackboard classroom and participation is expected because the class is designed as a shared learning experience, and because essential information not in the textbook will be discussed in the discussion board. Online presence and participation in all class discussions is essential to the integration of course material and your ability to demonstrate proficiency. Students are responsible for notifying the instructor if they will be missing online class requirements, and they must share their reason for missing class.

Online Attendance: Attendance for this online or hybrid course is considered when you are logged in and active in Blackboard, i.e., posting assignments, taking quizzes, or completing Discussion Boards. If you are absent/not active in the course shell, it is YOUR responsibility to let the instructor know immediately, upon your return, the reason for your absence if it is to be excused. Note that all instructors will follow the university policy of 14 consecutive days of unexcused absences/inactivity (i.e., failure to post assignments, take quizzes, or complete Discussion Boards) in a distance learning course resulting in failure of the course.

Diversity/Tolerance Policy:
Students are encouraged to contribute their perspectives and insights to class discussions. However, offensive & inappropriate language (swearing) and remarks offensive to others of particular nationalities, ethnic groups, sexual preferences, religious groups, genders, or other ascribed statuses will not be tolerated. Disruptions which violate the Code of Student Conduct will be referred to the Office of Student Life as the instructor deems appropriate.

Technology Requirements:
Blackboard Learn 9.1 is the platform software for this course.

- Internet Explorer® 10 from Microsoft (26 October 2012 for Windows 8, 26 February 2013 for Windows 7)
- Internet Explorer 9 from Microsoft (14 March 2011). There are some configuration options for Internet Explorer that may make some features of Blackboard Learn difficult to use.
- Safari® 6 from Apple (25 July 2012)
- Safari 5 from Apple (7 June 2010)
- Safari 5 for Windows is an exception. Apple’s continued support for this browser is unclear, and Blackboard does not test it.
- Firefox® 21 (stable channel) from Mozilla (14 May 2013)
- Firefox 17 (ESR channel) from Mozilla (14 May 2013)
• *Chrome™ 27 (stable channel) from Google (21 May 2013)*
