SYLLABUS
COUN 5690
Practicum in Counseling
3 Credit Hours

Department of Counseling
Division of Education and Human Services

Instructor Name: Dr. S. Dean Aslinia
Office Location: Building 1, Room 301J
Office Phone: 972-900-1397
Email Address: Dean.Aslinia@UNTDallas.edu
Office Hours: M-W 4-5 p.m. or by appointment
Virtual Office Hours: By appointment/Email

Classroom Location: Building 1 Counseling Clinic
Class Meeting Days & Times: 5-9:50 PM

Course Catalog Description: COUN 5690. Practicum in Counseling. 3 hours. Provides actual counseling experience with a variety of clients and problems.

Prerequisites: Prerequisite(s): All required degree courses in counseling program except specialty track course (COUN 5300, COUN 5770, COUN 5600, COUN 5750), COUN 5720, and COUN 5721. COUN 5740 may be taken concurrently. With the exception of COUN 5700, students may take an elective concurrently.

Required Text: Encrypted flashdrive – can be purchased at the UNT Dallas Bookstore or online. I would suggest around 32 GB.

Course Goals or Overview:

This course is designed to provide students with a supervised counseling experience that will facilitate the student’s development as a professional counselor. The focus is on a consistent implementation of an internally consistent, personal theory of counseling with a variety of clients. Students are required to carry a specified caseload at Counseling Program clinical facilities.

Students must complete supervised practicum experiences that total a minimum of 100 clock hours. Each student’s practicum includes all of the following (CACREP STANDARDS):

1. At least 40 clock hours of direct service with actual clients that contributes to the development of counseling skills.
2. Weekly interaction that averages one hour per week of individual and/or triadic supervision throughout the practicum by a program faculty member in accordance with the supervision contract. Biweekly communication (every other week) regarding the student’s progress between the program faculty and student’s supervisor must occur throughout the student’s practicum experience.
3. An average of 1 1/2 hours per week of group supervision that is provided on a regular schedule throughout the practicum by a program faculty member.
4. The development of video recordings for use in supervision or live supervision of the student’s interactions with clients.
5. Evaluation of the student’s counseling performance throughout the practicum, including documentation of a formal evaluation after the student completes the practicum.

Learning Objectives/Outcomes: The student will demonstrate knowledge, skills, and practices necessary for success as a professional counselor via his or her participation in key assessments in this course. Student Learning Outcomes for this course are as follows:

| 14     | *Chapter 11 On Being a Therapist: Alternative Therapy* | 4/25/16 | Final Case Conceptualization (3) |
**Teaching Method and Philosophy**

**Informed Consent**

I have been teaching in higher education for the past 8 years. During this time, I have taught at 4 different universities, including our local Universities of Texas A&M University-Commerce, and SMU. I have taught in the departments of Psychology and Counseling at Undergraduate, Masters, and PhD levels. During this time, I have developed a student-centered teaching approach that is based on the The Standards for Effective Pedagogy and Learning that were established through the Center for Research on Education, Diversity, and Excellence (CREDE).

CREDE cites “The Standards represent recommendations on which the literature is in agreement, across all cultural, racial, and linguistic groups in the United States, all age levels, and all subject matters. Thus, they express the principles of effective pedagogy for all students.”

The research consensus can be expressed as five standards.

- Joint Productive Activity: Teacher and Students Producing Together (discussions, course planning, etc.)

- Language Development: Developing Language and Literacy Across the Curriculum (writings, presentations, role-playing etc…)

- Contextualization: Making Meaning: Connecting Education to Students' Lives (clinical case studies, class discussion on cases, and examples)

- Challenging Activities: Teaching Complex Thinking (discussions, critical thinking, journal article reviews, case staffings)

- Instructional Conversations: Teaching Through Conversation (Open conversation/discussion forums, seating arrangement if possible)

Therefore, my teaching style utilizes a series of practices which may include, but is not limited to Lecture, PowerPoint presentations, Media (video, internet) and classroom discussions. I allow my students to take the lead in their learning, meaning, though there is a scheduled topic for the class session, we might embark on several parallel discussions on related topics which I found to be just as important for your clinical skill set and knowledge. As an experienced clinician who has owned, managed, and directed two private practice offices, and two mental health clinics; I believe in relating the classroom teaching to practical implications in our field. These topics often include, ethical dilemmas, legal statutes, board rules, best practices for treatment, and research findings.

Students, that require or prefer to have a course structured prior to the beginning of the semester and one that follows that structure rigidly are recommended to take other sections of this class taught by other faculty.
By not dropping this class and remaining passed the 3rd class session, you hereby acknowledge that you were notified of the teaching style and course layout and indicate your wish to follow this methodology.

Course Evaluation Methods

**Methods of instruction:** Instructional methods may include assigned readings, role plays, group discussion, didactic lectures, journal exploration, individual/triad and group supervision, case conceptualizations and related presentations, video/film analysis, and experiential activities.

**Student performance evaluation criteria and procedures:**

**KEY ASSESSMENT: PCPE-Practicum Midterm**

**KEY ASSESSMENT: PCPE-Practicum Final**

A. **FORMAL CASE PRESENTATION (20PTS)**

The purposes of your case presentation (one before final) is to expose students to a wider variety of clients, client issues, and work in different settings and provide opportunities or interactive group feedback and learning. For this project, select a client with whom you are having some difficulty and would like additional feedback.

Create a Powerpoint and distribute a copy to each class member and the professor (bring 4 copies) before you begin your presentation. Your Powerpoint should include a basic overview from the bulleted points below.

Presentation:

1. **Outline for Oral Presentation**
   a. Provide a BRIEF 5 Minute (or less) introduction of the client & the supervision sought via Powerpoint.
   b. Show a 10-15 minute clip of your counseling session with a client (please refrain from adding commentary during the demonstration unless your professor or classmate asks a clarifying question). Be advised that you **should ensure your video tape is working properly on the equipment in class before your presentation begins**.
   c. 10 Minutes of Supervision/Q&A will follow (practice active listening non-defensively as you receive both encouraging and possibly constructive feedback from your classmates and professor)
2. **Client information / Brief Biopsychosocial History**
   a. Description of the client (age, race, gender)
   b. Statement of the client’s problem
   c. Family, home, cultural background
   d. Relationship status and relationship/sexual history
   e. Physical health history
   f. Educational history
   g. Occupational history
   h. Social interactions, hobbies, recreational activities, and spiritual involvement

3. **Counseling history**
   a. Previous counseling or evidence of concerns
   b. Precipitants to intake
   c. Summary of work thus far (number of sessions with you, content)

4. **Current conceptualization**
   a. Assessment (mental status observations, self-report, instrument results, client strengths, client needs)
   b. Diagnostic impressions in DSM-V format
   c. Brief case conceptualization (what do you think is going on? what would your theory say is the issue? Role of social/cultural issues?)
   d. Treatment plan (client’s goals, your goals, and approaches used thus far)
   e. Theory-based plans for future sessions

5. **Solicit feedback regarding counselor’s performance**
   a. Statement of difficulties/questions
   b. Introduction of the tape and description what you are attempting to accomplish
   c. Specific request for the type of feedback or help you would like

---

**A. Review of Client Files (2 x 10pts = 20 pts)**
Students’ triadic supervisor will review client files intermittently and provide a grade at the midpoint and end of the semester to ensure notes are done adequately and client’s files have all the pertinent information according to Clinic procedures.

**B. PCPE (Mid Term and Final) (2x 25pts = 50pts)**
Student will complete PCPE at mid-term and final according to course agenda. The professor and triadic supervisor will then evaluate the PCPE and provide an additional PCPE for the student during a 20 minute in person conference on the day (at mid-term and at final) indicated on the course agenda.

**D. Mini Case Studies (3 x 10 pts = 30 pts)**
Choose 3 different supervision sessions where you will present your mini case study
Write up:

1. Client information / Brief Biopsychosocial History
   a. Description of the client (age, race, gender)
   b. Statement of the client’s problem
   c. Family, home, cultural background
   d. Relationship status and relationship/sexual history
   e. Physical health history
   f. Educational history
   g. Occupational history
   h. Social interactions, hobbies, recreational activities, and spiritual involvement

2. Counseling history
   a. Previous counseling or evidence of concerns
   b. Precipitants to intake
   c. Summary of work thus far (number of sessions with you, content)

3. Current conceptualization
   a. Assessment (mental status observations, self-report, instrument results, client strengths, client needs)
   b. Diagnostic impressions in DSM-IV-TR format
   c. Brief case conceptualization (what do you think is going on? what would your theory say is the issue? Role of social/cultural issues?)
   d. Treatment plan (client’s goals, your goals, and approaches used thus far)
   e. Theory-based plans for future sessions

4. Show video tape of at least 10 minutes during supervision

University Policies and Procedures

Students with Disabilities (ADA Compliance):
The University of North Texas Dallas faculty is committed to complying with the Americans with Disabilities Act (ADA). Students’ with documented disabilities are responsible for informing faculty of their needs for reasonable accommodations and providing written authorized documentation. For more information, you may visit the Office of Disability Accommodation/Student Development Office, Suite 115 or call Laura Smith at 972-780-3632.

Student Evaluation of Teaching Effectiveness Policy:
The Student Evaluation of Teaching Effectiveness (SETE) is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class.

Assignment Policy:
Assignments are expected to submitted on the due date designated in the syllabus. Assignments that are not submitted by the end of the day on which they are due will receive an automatic deduction of 5pts.
Assignments will receive a deduction of 5 pts/day they are late. Assignments that are more than 3 days late will not be accepted, and the student will be assigned a 0 for the assignment.

Exam Policy:
Exams should be taken as scheduled. No makeup examinations will be allowed except for documented emergencies (See Student Handbook).

Academic Integrity:
Academic integrity is a hallmark of higher education. You are expected to abide by the University’s code of conduct and Academic Dishonesty policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University’s policies and procedures. Refer to the Student Code of Conduct at http://www.unt.edu/csrr/student_conduct/index.html for complete provisions of this code.

Bad Weather Policy:
On those days that present severe weather and driving conditions, a decision may be made to close the campus. In case of inclement weather, call UNT Dallas Campuses main voicemail number (972) 780-3600 or search postings on the campus website www.unt.edu/dallas. Students are encouraged to update their Eagle Alert contact information, so they will receive this information automatically.

Attendance and Participation Policy:
The University attendance policy is in effect for this course. Class attendance and participation is expected because the class is designed as a shared learning experience and because essential information not in the textbook will be discussed in class. Students who miss any periods of class will have points deducted from their final grade, unless it is a medical emergency or death of immediate family member. Written documentation is required to substantiate any emergency absence in which the student asked to be excused. Attendance is defined as both physical and intellectual presence. Therefore, students who are not fully present during class will be asked to leave and assigned an absence for the day. The dynamic and intensive nature of this course makes it impossible for students to make-up or to receive credit for missed classes. Attendance and participation in all class meetings is essential to the integration of course material and your ability to demonstrate proficiency. Students are responsible to notify the instructor if they are missing class and for what reason. Students are also responsible to make up any work covered in class by contacting a classmate. It is not the professor’s responsibility to update the student on missed information. It is recommended that each student coordinate with a student colleague to obtain a copy of the class notes, if they are absent.

Diversity/Tolerance Policy:
Students are encouraged to contribute their perspectives and insights to class discussions. However, offensive & inappropriate language (swearing) and remarks offensive to others of particular nationalities, ethnic groups, sexual preferences, religious groups, genders, or other ascribed statuses will not be tolerated. Disruptions which violate the Code of Student Conduct will be referred to the Center for Student Rights and Responsibilities as the instructor deems appropriate.

Additional Policies:
- **Use of Cell Phones & other Electronic Devices in the Classroom**
  Due to the experiential nature of this class and the importance of the information being conveyed during lecture, electronic devices, except for laptops, are not to be used during class time. Cell phones must be set to vibrate or silent during class, and for no reason may a student make or receive a call during class, except for medical emergencies. In addition, texting is not allowed during class time. Students must set their texting device (cell phone, smart phone, etc…) to silent. Students who engage in texting or phone calls during class will be asked to leave.
- **Food & Drink in the Classroom**
  Due to the length and time during which class has been scheduled food and drink are allowed in the classroom. However, it is the responsibility of the student to bring food which does not
result in distraction from participation in class activities. Students are responsible for cleaning any trash which results from their food items and cleaning any spills/messes.

- **Grade of Incomplete, “I”**

  For this course the grade of "I" is, as a general rule, not given. If a student believes that they possess extenuating circumstances which bear the instructors consideration, a conference with the instructor should be scheduled.
In an effort to cultivate an effective learning environment, faculty members request that each student meets expectation of the following behaviors. The intent of this rubric is NOT to be punitive but rather to have clear and consistent expectations across the department. Students have the freedom to choose their behavior. Faculty will enforce the following guidelines for the behaviors that students choose.

<table>
<thead>
<tr>
<th></th>
<th>Meets Expectation -0% of grade</th>
<th>Occasionally Below Expectation -2.5% of final grade</th>
<th>Consistently Below Expectation -5% of final grade (-2.5% for each additional missed class tardy)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Attendance</td>
<td>Attends all class with one or less excused absence.</td>
<td>Misses one class with excused absence and one absence due to emergency (family member death, hospitalization, or something involving police or firefighters).</td>
<td>Misses two or more classes due to non-emergency (family member death, hospitalization, or something involving police or firefighters).*</td>
</tr>
<tr>
<td>2. Punctual</td>
<td>Arrives and is ready to begin on time with no more than one tardy and remains to the end of class.</td>
<td>Is more than 5-10 minutes tardy two times or leaves class early two times.</td>
<td>Is more than 10 minutes tardy more than two times or leaves class early more than two times.*</td>
</tr>
<tr>
<td>3. Quality Contribution</td>
<td>Questions and comments are on topic, indicate reflection and knowledge of readings, and contribute to a deeper understanding.</td>
<td>Questions and comments are occasionally (2 times) tangential, do not indicate knowledge of readings, and do not contribute to a deeper understanding.</td>
<td>Questions and comments are often tangential (3+ times), do not indicate knowledge of readings, and do not contribute to a deeper understanding.</td>
</tr>
<tr>
<td>4. Attentive Behavior</td>
<td>Pays attention and does not engage in side conversations or off-task technology activity (i.e. texting, surfing web, social networking) more than once a semester.</td>
<td>Does not pay attention but rather engages in side conversations or off-task technology (i.e. texting, surfing web, social networking) twice a semester.</td>
<td>Does not pay attention but rather engages in side conversations or off-task technology (i.e. texting, surfing web, social networking) more than twice a semester.</td>
</tr>
<tr>
<td>5. Responsible Behavior</td>
<td>Is consistently informed by checking Blackboard, syllabus, and emails for instructions and updates.</td>
<td>Is uninformed about instructions and updates twice.</td>
<td>Is uninformed about instructions and updates more than twice.</td>
