

## **SUPPLEMENTAL INSTRUCTION!**

Supplemental Instruction (SI) is a peer-led program that targets challenging courses offered at UNT Dallas. **The SI program provides a safe space for students to ask questions they may be too nervous to ask during the lecture or while with the professor during their office hours.**

SI sessions are group study sessions where the SI leader will:

- Facilitate discussions of key concepts
- Encourage peer to peer learning
- Provide an opportunity for students to process information and prepare for exams

Each course where SI is offered has a corresponding SI Leader. **The SI Leader is someone who has already taken the courses and performed exceedingly well.**

### ***Why Attend SI?***

- Students who attend SI sessions consistently have shown to perform remarkably better in the course than students who do not participate
- Students gain critical thinking skills, learn test-taking techniques, note-taking methods, and develop their own learning communities

### ***Hear from our Students and Staff!***

- *"The implementation of the SI program is a great addition to the Learning Commons as students are able to get tutoring dedicated to their specific STEM courses. I can attest that this program reinforced course content and helped improve my scores."* - **Ysidro N. Motta, Pre-Medical Student**
- *"I had 3 students who began the course with failing grades and after attending SI regularly they all received B's as their final grades."* - **Anya Reck, Professional Math SI Leader**

## **MORE ABOUT US!**

The Learning Commons consists of **four main tutoring areas:**

- Writing Center (writing support)
- Math Lab (math support)
- Peer Tutoring (general subject tutoring, such as science, accounting, finance, and statistics)
- Supplemental Instruction (SI) (peer tutoring embedded in select courses)

All of our tutoring services are **FREE** for students enrolled at UNT Dallas. Whether you feel like you need extra resources and tools or just want to extend your learning in a social environment, the Learning Commons is here to help!

## **WRITING CENTER!**

The Writing Center is dedicated to providing student-centered instructional support in writing to help students improve their language and communication skills. We assist with:

- Brainstorming and organization
- Citation and avoiding plagiarism
- Grammar and sentence structure
- Voice, flow, and general academic content
- Research and literature reviews

## **MATH LAB!**

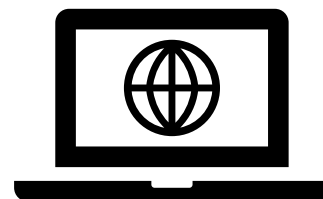

The Math Lab provides tutoring, homework, and study assistance for all registered UNT Dallas students who need help with **undergraduate math, accounting, statistics, and computer science courses**. Our tutors will answer specific content-related and/or homework questions, will help you get started on problems, check that you are approaching a problem correctly, and encourage you through the process.

## **SMART THINKING!**

Smarthinking is UNT Dallas' supplemental tutoring program; it is a **FREE online tutoring resource** for all registered UNT Dallas students. Smarthinking provides online academic tutoring services through on-demand (drop-in) sessions or appointments (scheduled sessions) in a wide range of subjects within their field of study.

With Smarthinking, you can:

- Connect with an e-structor and interact with a live tutor.
- Submit your Writing for any class to the Online Writing Lab.
- Submit a Question and receive a reply from a tutor.

Visit <https://learning.untDallas.edu/smarthinking> to see how to access this resource.
